

AN INITIATIVE OF

REDUCING PLASTIC WASTE PLEDGE

Our company pledges

- To provide a source of drinking water on our stand throughout the show for visitors and staff to refill reusables
- To encourage every employee / person working on the stand to bring their own reusable mug or bottle from home for use during and after the show. If needed, the company will provide reusables to ensure all staff have an alternative to single use.
- Not to use or provide single use plastic bottled drinks during the show
- Take all possible measures to avoid single use plastic food or drink items* on the stand and to source, reuse and dispose of alternatives sustainably
*for example cups, glasses, cutlery, crockery, food wraps, straws, stirrers, single portion milk, sugar, sweets etc
- To proudly communicate this pledge and encourage colleagues and friends to join our mission to keep the tradeshow free of disposable waste.
